

HOTONE SKYLINE Series
Stompbox

LUSH
Flanger
Owner's Manual

THANK YOU FOR PURCHASING A HOTONE PRODUCT!

The flanger effect was originally achieved by manually independently varying the speed of two tape recorders with the same program material during studio recording mixdowns.

The LUSH flanger pedals recreates that rich, natural, golden studio flanging effect. With extended onboard controls, you'll find the key to a new modulation world. Use the DIVE button to engage negative feedback flanging mode, which features an "underwater" sound character with twisted EQ (cuts the low frequency).

Controls the flanging speed

Controls the flanging depth

Plug in 9V DC adapter (center negative)

Push to enable negative feedback flanging mode (cuts the low frequency)

Controls the feedback amount

Specifications
Current Consumption: 25 mA
Dimension: 74mm (D) x 44mm (W) x 44mm (H)
Weight: 190 g

True Bypass
